Seville's Design

Wide Eyed

Clinique's Bottom Lash Mascara features a micro-mini brush. The applicator defines bottom lashes to create a naturally wide eyed look. The miniature barrel is the perfect partner to any Clinique mascara. The formula wears for up to 24-hours without smudging.

Kissable

Bobbi Brown's new lightweight, colour-saturated lipstick formula showcases the true colour of pigment. This creamy lipstick moisturises and conditions lips as it protects with SPF 12. The formula gives crisp, clear colour and full coverage without a heavy feeling.

Perfectly Primed

Face of Australia Eye Primer comes in matte and shimmer formulas. Choose matte for a perfect stay proof base. Shimmer creates a glitzy look with micro-fine glitter pigments. Both formulas create a smooth canvas; hold down fine hairs, and smooth skin for a flawless, long lasting finish.

New For YOU

Go Glam

The La Glam Minerals range is designed for women who want to look and feel fabulous without sacrificing skin health. The recently launched range by renowned makeup artist Amanda La Monica controls excess oil and shine. La Glam softens lines and evens skin tone to give a long lasting, naturally radiant finish. The range includes mineral foundation, eye shadow, blush, lipstick, lip liner, lip-gloss, eyeliner, highlighter, setting powder, mascara, and a brush set.
