LaGlam LumiGlow

LaGlam Minerals is adding to their already award winning cosmetic products with their LumiGlow range. LaGlam LumiGlow cream foundation has a long lasting luminous glow made of 100% minerals and contains natural sunscreens to help fight against the signs of pre-mature ageing. This foundation offers a smooth finish and a youthfulness to the skin with superb coverage whilst still keeping the skin looking fresh and natural!

Not only is LaGlam LumiGlow Cream Foundation (*RRP \$60*) to be released this month but also a NEW Cream Blush "*Blushing Bride*" (*RRP \$35*) to compliment the new cream foundation.

Makeup Artist and LaGlam Founder, Amanda La Monica says "I'm so excited to bring you these new products, they have been in the making for the past year and there has been so much anticipation to get them out there to you all! I certainly love them and believe them to be another truly outstanding product!."

The LumiGlow foundation is the first much anticipated product to be released in the new and exciting LumiGlow range and is currently available in 4 popular shades, *Malibu 02* (Fair to medium), *Miami 03* (Medium), *Waikiki 04* (Yellow based medium), *Bora Bora 05* (Olive). The super stylish compact is perfect for today's busy woman on the go.
